2025-10-20	21:07	Alleviating Sewer Infrastructure Issues Through On-Site Rainwater Management	Support	In the referral report dated August 19th, Page 18 step 4 duration D is in defined as duration of rainfall in minutes but on page 15 D is defined as duration of rainfall in seconds . Seems these should agree with one another before they are enacted.	Tim Tewsley	Kitsilano
