The updated design is an improvement — the single tower massing, better tower separation, stronger public realm frontage, and increase in social and family-sized housing units all contribute positively to the neighbourhood and align well with the City’s current housing priorities.</p> <p>My only concern relates to the removal of the on-site childcare facility. The original plan included childcare as an important public benefit, and with the updated proposal providing more families and children, this amenity becomes even more meaningful.</p> <p>I kindly request that Council and staff provide a clear commitment to delivering replacement childcare capacity within the immediate area, using the previously allocated funds. Ensuring that new childcare spaces are created nearby will help support current and future families in this growing district.</p>	Kobe Tous	Downtown
