2026-01-20	11:50	CD-1 Rezoning: 1125 West 10th Avenue	Support	Projects like AMR Investment's 1125 West 10th building are exactly what the City needs to continue to increase the supply of purpose built rental along key transportation links. While the height and scale of this project is currently leading edge, it will immediately fit in the community with the redevelopment of Oak and W 12th by the VGH Hospital Foundation and the continued development of the Broadway Plan. It is critical to increase housing options around VGH and Broadway to support the medical students, residents, nurses, and doctors who need to be conveniently located for to the hospital and have access to public transportation to UBC.
