Please don't listen to NIMBYs and drag this process out.</p> <p>A few notes:</p> <ul style="list-style-type: none"> <li>- there is a park and houses around, so some green space/trees on the street would be nice to soften the transition (if possible).</li> <li>- please think about bike lanes and pedestrian safety, especially at night/low light.</li> <li>- this goes down the route from strathcona to our closest skytrain station. So a route that is accessible, efficient, and safe near this area is important.</li> </ul> <p>This project looks cool, good work!</p>	Chase Wright	Strathcona
