2026-03-10	19:37	City of Vancouver Official Development Plan	Oppose	How can you conceivably have a 30 year City development plan without ongoing community consultation. For years citizens of Vancouver participated in community meetings to develop community plans for each distinct neighbourhood, but now that work will be ignored and thrown away! Without sufficient infrastructure to accommodate your outrageous developments our city's standard of living will diminish drastically! Please reconsider.	Robert Hindley	West Point Grey
