2026-04-21	21:42	CD-1 Rezoning: 888-896 Cambie Street and 111-191 Smithe Street	Other	<p>Hi</p> <p>I noticed that all new towers east of Nelson St. don't follow successful model of a street friendly podium with a tall slender tower on top. The building are getting 'fatter'. Blocking the views of everyone else. This building should be tall but thinner.</p> <p>thanks David</p>	David McKie	Downtown	
2026-04-27	10:01	CD-1 Rezoning: 888-896 Cambie Street and 111-191 Smithe Street	Other	<p>If there will be a new building, please ensure that the new building aligns with the other newly built buildings in Smithe street like 885 Cambie St which gives more space to the sidewalk. As all of us know, this location is so close to BC Place. The sidewalk should be more spacious to accommodate crowd during event time for the safety reason.</p> <p>People's safety is more important than anything else. I like the design of Hilton on Robson, its entrance might be a bit hidden, but it compromised to the building alignment in the street.</p> <p>No more narrow sidewalk in Vancouver downtown please!!!</p>	Julia Wu	Downtown
