Vancouver is a city. What do you mean by “ Named Village “? How you derived the name “ Village “ ? Named Kitsilano “Community Hub may be more appropriate, Point Grey “ Community Hub “ , etc... which reflects the original location of the community’s name. Community Hub will be a better name. Vancouver has long- established neighborhoods and community Hub better reflects the City’s vision without creating confusion about neighborhood identity.	Po Ling Mah

What the city needs less of is opportunities to gentrify. See strathcona for examples of what more limited, creative development allows. I’m not anti development, but there’s not enough room for the weird and wonderful that older, weirder building types allow for.	Paul Shoebridge	Kensington-Cedar Cottage
