I find living in areas dense with high rise buildings overwhelming but can't afford a single family home and it's great to have options in between	Nadia Jorgenson	Fairview

Many older detached homes are already fairly tall at 3-stories, not to mention new larger detached homes and duplexes, triplexes and fourplexes. Not everyone likes living in a high-rise, and not everyone can afford a detached house. We should spread the development give people more housing options. Also, density can be green, quiet and safe. Just look at the West End, Kits, Fairview or Commercial Drive. The more interesting areas and businesses we have in the city, the better.	Ekaterina Aristova	West End
