GENERAL MANAGER'S COMMENTS

The General Manager of Community Services RECOMMENDS approval of the foregoing.

COUNCIL POLICY

Section 324A of the Vancouver Charter enables Council by resolution or by-law to declare any building, in or upon any private or public lands a nuisance or dangerous to the public safety or health and by such by-law or resolution, to order that building to be removed by the owner, agent, lessee or occupier thereof.

Section 336D of the Vancouver Charter provides a mechanism whereby the City of Vancouver can warn prospective purchasers of contraventions of City By-laws relating to land or a building or structure. It provides that if the City Building Inspector observes a condition that he considers to be a contravention of a by-law relating to the construction or safety of buildings; or as a result of that condition, a building or structure is unsafe or unlikely to be usable for its expected purpose; or is of a nature that a purchaser unaware of the contravention, would suffer a significant loss or expense if the by-law were enforced against him, he may recommend to City Council that a resolution be considered directing the City Clerk to file a notice against the Title to the property in the Land Title Office.

BACKGROUND

This is a single family dwelling that was constructed prior to 1949 and is located in an RS-1 One Family Dwelling District.

Our inspections services report that this building has been vacant for several years and the City has received several complaints from neighbouring residents about the untidy condition of the site and the building being open and accessible to children and transients. Many orders were issued and private contractors were hired to clean up the site and board-up the building at the expense of the owner.

DISCUSSION

This building has been vacant for several years resulting in complaints from neighbouring residents about the untidy condition of the yards and the poor appearance of the building. As the building is not always secured and is open and accessible to children and transients a potentially unsafe condition exists. In its present state it is an eyesore and is a detriment to the neighbourhood.

CONCLUSION

It is recommended that City Council declare that this building is a nuisance and dangerous to public safety and order the building to be demolished and that a chain-link fence be provided around the site to prevent dumping. It is also recommended that the City Building Inspector and/or his designate be authorized to have the work done or to request that the Director of Legal Services seek injunctive relief to have the work done if the situation is warranted.

Although the property is not listed for sale, it is further recommended that a 336D Notice be filed against the Certificate of Title to the property in order to warn prospective purchasers that the building and property is in violation of the Vancouver Building, Standards of Maintenance and Untidy Premises By-laws and that there is an order of Council against the property.
